## 9. Description Of Change:

Baseline Revision A of JSC 29789, Project Technical Requirements Specification (PTRS) for the Alpha Magnetic Spectrometer - 02 (AMS-02) Payload Integration Hardware (PIH).

## 10. Justification:

Responsibility for the AMS Project was transferred from the Space and Life Sciences Directorate (SA) to the Engineering Directorate (EA) in May 2004. As a result of the transition from SA to EA, the PTRS for the AMS-02 PIH (JSC 29789) was revised to meet the requirements of EA-WI-023 and reflect the philosophy of EA management. A formal review of the revised PTRS was conducted as a part of the AMS Rebaselining Review (June 18 - July 9, 2004). All RIDs relevant to the PTRS were addressed and dispositioned as a part of the rebaselining effort.

## 11. Action Required (To Implement This Change):

Approve Revision A of JSC 29789, obtain necessary approval signatures, release through JSC Document Control, and post the official version to the EA AMS-02 Website.
